Online Shopping Website

1. Problem Statement

To design and develop a responsive Online Shopping Website using HTML and CSS. The website should display different products with product images, names, prices, discounts, ratings, categories, and descriptions. It should include a shopping navigation bar, promotional banners, and shopping buttons such as “Add to Cart” and “Buy Now”. The layout should adjust automatically to different screen sizes, including desktops, tablets, and mobile phones.

2. Source Code

Create a file named shop.html and copy the following code into it. The code includes both HTML and CSS in a single file, so it is easy to run in a browser.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>ShopEase - Online Shopping</title>

  <style>
    * {
      margin: 0;
      padding: 0;
      box-sizing: border-box;
      font-family: Arial, sans-serif;
    }

    body {
      background-color: #f5f6fa;
      color: #222;
```

```
}

/* Navigation Bar */
header {
  background-color: #172554;
  color: white;
  padding: 18px 6%;
  display: flex;
  justify-content: space-between;
  align-items: center;
  flex-wrap: wrap;
  gap: 15px;
}

.logo {
  font-size: 28px;
  font-weight: bold;
  color: #facc15;
}

nav {
  display: flex;
  gap: 20px;
  flex-wrap: wrap;
}

nav a {
  color: white;
```

```
    text-decoration: none;
    font-size: 15px;
}

nav a:hover {
    color: #facc15;
}

.cart {
    background: #facc15;
    color: #172554;
    padding: 10px 15px;
    border-radius: 6px;
    font-weight: bold;
}

/* Promotional Banner */
.banner {
    margin: 25px auto;
    width: 90%;
    min-height: 280px;
    border-radius: 14px;
    padding: 45px;
    display: flex;
    align-items: center;
    background: linear-gradient(100deg, #dbeafe, #fef3c7);
}
```

```
.banner h1 {
  font-size: 38px;
  color: #172554;

```

</body>

</html>

4. Conclusion

The Online Shopping Website was developed using HTML, CSS, and JavaScript. HTML provides the structure, CSS improves the appearance and responsive layout, and JavaScript adds basic shopping button interactions and cart counting. The website presents products in an organized and attractive manner, making it easier for customers to explore products and compare prices. This project demonstrates the basic concepts of e-commerce website development and responsive web design.

Yoga and Meditation Website

1. Problem Statement

To design and develop a responsive Yoga and Meditation Website that promotes physical fitness, mental peace, and overall wellness. The website should display different yoga poses, meditation techniques, instructor profiles, class schedules, membership plans, and wellness articles. It should use calming colors, readable typography, attractive images, and a user-friendly layout that works on desktops, tablets, and mobile devices.

2. Objectives

- To provide information about yoga poses and meditation techniques.
- To display yoga instructors and their profiles.
- To show class schedules and membership plans.
- To share useful health and wellness articles.
- To create a beautiful, responsive, and easy-to-use interface using HTML and CSS.

3. HTML and CSS Source Code

Save the following code as yoga.html and open it in your browser. It includes HTML and CSS in a single file, with yoga images, instructor profiles, schedules, membership cards, and wellness articles.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Serenity Yoga & Meditation</title>

  <style>
    * {
      margin: 0;
```

```
    padding: 0;
    box-sizing: border-box;
}

html {
    scroll-behavior: smooth;
}

body {
    font-family: Arial, sans-serif;
    background-color: #f7f8f2;
    color: #34483b;
    line-height: 1.6;
}

header {
    background-color: #315b48;
    color: white;
    padding: 18px 7%;
    display: flex;
    justify-content: space-between;
    align-items: center;
    flex-wrap: wrap;
    gap: 12px;
}

header h1 {
    font-size: 25px;

Home Yoga Poses Instructors Schedule Membership Articles

Find Your Balance, Discover Your Peace

Relax your mind, strengthen your body, and improve your life through yoga and meditation.

Explore Membership

Yoga Poses & Meditation

Explore simple practices for a healthier lifestyle.

Mountain Pose

Helps improve posture, balance, and body awareness.

Mindful Meditation

Focus on breathing and practise present-moment awareness.

Stretching Yoga

Practise gentle movements to improve flexibility.

Meet Our Instructors

Learn with friendly and experienced yoga guides.

Ananya Sharma

Speciality: Hatha Yoga

Guides beginners through simple yoga poses and breathing.

Priya Reddy

Speciality: Meditation

Teaches relaxation, mindfulness, and guided meditation.

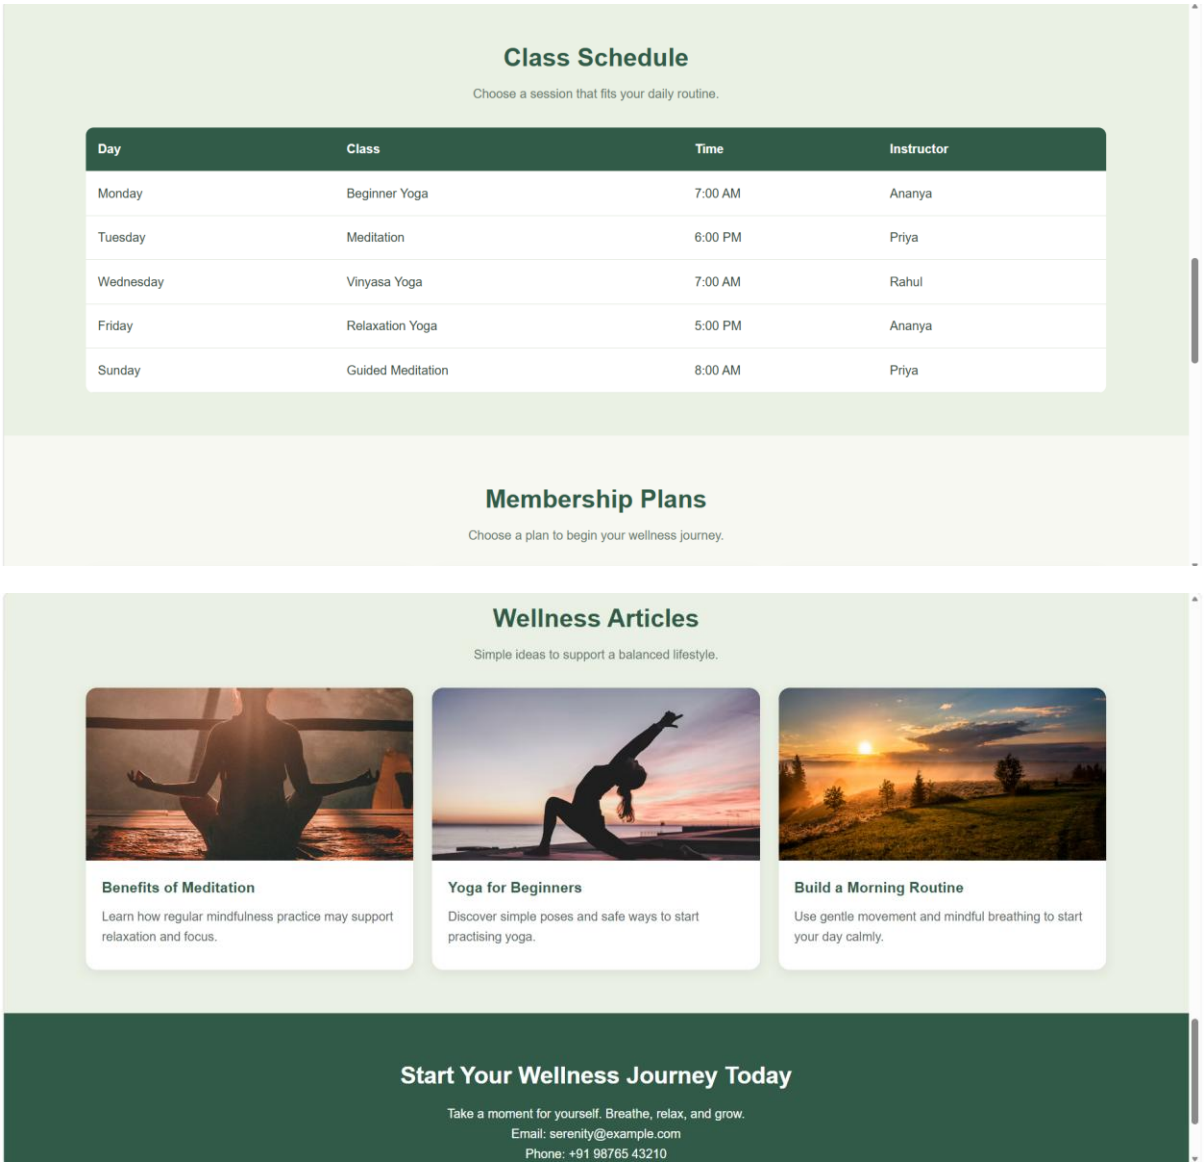

Rahul Verma

Speciality: Vinyasa Yoga

Helps students connect movement with controlled breathing.

Class Schedule

Choose a session that fits your daily routine.

4. Conclusion

The Yoga and Meditation Website was designed using HTML and CSS to promote wellness and provide useful information about yoga and meditation. It includes yoga poses, instructor profiles, class schedules, membership plans, and wellness articles. Calming colors, attractive images, and responsive layouts make the website visually appealing and easy to use across different devices.

Thus, this project demonstrates how ML and CSS can be used to create a professional, responsive wellness website.

Bakery and Cake Shop Website

Here is a complete Bakery and Cake Shop Website using HTML and CSS. It includes cake and pastry images, product prices, custom cake designs, seasonal offers, and store contact details. The design uses soft pink, cream, and chocolate colors.

1. Problem Statement

To design and develop a responsive bakery and cake shop website that displays different bakery products such as cakes, pastries, and cookies. The website should include product images, prices, custom cake designs, seasonal offers, and store contact details. It should have an attractive layout, easy navigation, and visually appealing image galleries to provide a pleasant user experience.

2. HTML and CSS Code

Save the following code as bakery.html and open it in a web browser.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Sweet Treats Bakery</title>

  <style>
    * {
      margin: 0;
      padding: 0;
      box-sizing: border-box;
      font-family: Arial, sans-serif;
    }

    body {
```

```
    background-color: #fff8f2;
    color: #4b2929;
    line-height: 1.6;
}

header {
    background-color: #7b2945;
    color: white;
    padding: 18px 6%;
    display: flex;

3. Output

The webpage will contain the following sections:

1. Home page

A large cake background image, bakery name, welcome message, and an Explore Our Bakery

4. Conclusion

The Bakery and Cake Shop Website provides an attractive and user-friendly platform for displaying bakery products, prices, seasonal offers, and custom cake designs. HTML is used to structure the webpage, while CSS adds colors, layouts, image galleries, hover effects, and responsive styling. This project demonstrates the practical use of HTML and CSS to create a professional bakery website.
